

### Augusta State University-CURS Grants-Fall 2012 Awards

Faculty	Department	Project Title
Cannon	Biology	Cell culture basics: Learning how to Grow Cells in Culture
Saul	Biology	Wildlife observational studies
Reichmuth	Biology	Fish Diversity Among Three Barrier Islands along the Southeastern United States
Tugmon	Biology	Isolation, Identification and Antibiotic Sensitivity of Bacteria Found on and in Spiders of the CSRA
Abdulovic-Cui	Biology	Investigating characteristics of DNA Microsatellite Instability
Abdulovic-Cui	Biology	Crab Collection to Investigate Genetic Diversity among Crustacean Species along the Southeastern Coast of the United States
Dunn	Biology	Genetic mutation of Yeast Myosin
Stephens	Chemistry	Travel to SERMACS
Stephens	Chemistry	Synthesis of Quinazolinone Derivatives as Potential HHV-6 Inhibitors
Spencer	Chemistry	Travel to SERMACS
Spencer	Chemistry	Investigation of STEM loop DNA for Potential use in SELEX
Maio	Chemistry	Synthesis of a stable heterohexacene
Davis and O'Meara	Communications	Performing Fairytales: Staging and Presenting Ninety-Six Layers of Concrete, Furniture, and Air
Ginn	Political Science	Travel to GA Political Science Association Annual Conference
Albert	Political Science	Travel to GA Political Science Association Annual Conference
Topolski	Psychology	Travel to Scientific Study of Sexuality conference
Patton and Johnson	Psychology	Environmental Context Dependent Memory and Olfaction in Rats
