

You must have current CPR and First Aid certification cards **BEFORE** the start of the program.

All students are required to have **BOTH** certifications from the American Heart Association:

- CPR – BLS for Healthcare Providers
- Heartsaver First Aid (if you take the course entitled Heartsaver First Aid, CPR and AED, it will be used to satisfy the first aid certification only)

NOTE: We only accept the certifications from the American Heart Association. We do not accept certifications from online courses.
