

## **2017 Masters of Health Sciences in CLS – Graduate Projects**

### **Andrya DeGhelder**

Project: Standardized Clot Lysis Assay For Enzymatic Activity Quantification Of Recombinant Tissue Plasminogen Activators.

Advisors: Joseph Cannon, PhD and Vincent Robinson, MD

### **Helen Du and Patience Koranteng**

Project: Evaluation of insulin-like growth factor-1 receptor expression as a prognostic factor in breast cancer (A meta-analysis and systematic review).

Advisors: Joseph Cannon, PhD Gloria Sloan, MS, MT(ASCP), MJ Weintraub, D.V.M, M(ASCP), Ansley Stuart, MSIS

### **Mosa Charles, Jie Gao and Jingyuan Jiang**

Project: Human vs Machine: A systematic review of automated bead-based multiplex immunoassay performance.

Advisors: Joseph Cannon, PhD, Gloria Sloan, MS, MT(ASCP), MJ Weintraub, D.V.M, M(ASCP), Ansley Stuart, MSIS

### **Jack Peeler**

Project: Anosmin-1 expression in breast cancer tissue.

Advisor: Raghavan Raju, PhD
