

**Center for Undergraduate Research and Scholarship (CURS)
CURS Grant Funding Final Report**

Faculty Member:	Logan Wheeler, Writing Center
Amount of Award:	\$844.00
Student(s) Involved (if any):	Emily Calkins, John-Michael Garner, Noel Yucuis
Specific Outcomes:	To support Writing Center tutors in two research projects--one that explores the dynamics of space and design and their effects on and learning, and another that explores the use of technology in the Writing Center. To accompany the tutors at the Southeast Writing Centers Association conference in Richmond, KY.
Discussion and Comments:	<p>The tutors presented their projects, but they also benefitted from workshops by other Writing Center tutors and directors, helping the tutors to become better tutors themselves. Overall, this was a successful conference for the tutors because they learned a lot both through research and through group discussion and workshops, and returned with clear ideas to help further the Writing Center's mission.</p>
