

# Augusta Promise

## Scholarship Program

**Help students with the greatest financial need earn a college degree practically debt-free.**

The Augusta Promise is just that – an assurance to students that they can and will complete their college degrees. This start-to-finish program is a commitment to give eligible students financial assistance as well as the tools they need to finish strong academically, such as mentorship, tutoring, counseling and other individual guidance.

Scholarships and grants such as Pell and Hope may get a student's foot in the door to higher education by covering tuition. However, the cost of books, rent, food, fuel and incidentals over four years creates a significant burden. For low-income students, these additional expenses can stall their college dreams before they really begin.

By investing in the Augusta Promise, you have a chance to change students' lives at Augusta University by removing these financial hardships. Your support for the Augusta Promise scholarship program will enable students with the greatest financial need to complete a baccalaureate degree at virtually no cost to them.

Augusta Promise supports first-year students who are Pell Grant eligible, Hope or Zell Miller recipients, and living in on-campus housing, with preference given to first-generation students.

**With an investment in the Augusta Promise, you help fulfill Augusta University's promise to our students to cross the finish line to graduation and beyond.**

## FUNDING OPPORTUNITY

### What is your promise to the next generation?

Invest in Augusta Promise and empower an Augusta University student to graduate and join the workforce debt-free.
