

Accepting Applications For Fall 2021

We welcome highly talented applicants across the usual boundaries of mathematical sciences as well as scientific disciplines to apply.

AUGUSTA
UNIVERSITY

Launch of a new program:

MS DATA SCIENCE

Empowers aspiring students with innovative methods to address complex problems facing the society and the well being of humankind.

Curriculum will provide a strong foundation and expertise in quantitative methods, machine learning tools and data management skills.

For more information, contact the Department of Population Health Sciences. For details and to apply:
