O-1 Department Request

(HEALTH SCIENCES CAMPUS Positions)

This form should be completed by the Augusta University hiring unit that wishes to use the services of the International and Postdoctoral Services Office (IPSO) to hire a nonimmigrant specialty worker. After completing this form, please email it to IPSO@augusta.edu. IPSO will begin processing only when forms are completed.

O Visa—Individuals of Extraordinary Ability

The O-1 visa category is reserved for individuals of "extraordinary ability" in the sciences, arts, or education. Augusta University will usually file O-1 visa petitions only for faculty and research scholars.

WARNING: This visa requires considerable effort on the part of the applicant/employee. This process cannot be taken lightly. It takes a typical applicant 1-2 months to gather the information required to meet the criteria. This is not an appropriate visa for postdoctoral fellows or others who are still junior in their field of study. Deciding whether an applicant/employee qualifies for the O visa is often difficult. When you submit this form, please schedule an appointment with the Director of IPSO by calling 1-0670.

Characteristics of the O Visa:

- O-1 status may be valid for an initial period of three years and may be extended indefinitely in one-year increments.
- Dependants of the O-1 status holder are classified in O-3 status and are not eligible for employment.
- J-1 visa holders may be able to obtain O-1 status even if they are subject to the two-year home residency requirement. The requirement is not waived but postponed for the time the individual holds O-1 status.
- The employer is obligated to pay the cost of return fare home if the O-1 employee is terminated before the end of the authorized period of stay.

O Visa Eligibility Requirements:

An O-1 visa petition must demonstrate the applicant's "ability" through the eligibility requirements described below. To qualify as an individual of extraordinary ability there must be evidence of the applicant's having received a major internationally-recognized award (Novel Prize) or at least three of the following:

- Receipt of lesser nationally or internationally recognized prizes or awards for excellence in the field
- Membership in associations in the field that require outstanding achievements of their members, as judged by recognized experts in the field
- Evidence of authorship of scholarly articles in the field, in professional journals or other major media
- Published material in professional or major trade publications or major media about applicant's work
- Evidence of participation on a panel, or individually, as the judge of the work of others in the field
- Evidence in the form of letters and affidavits from prominent colleagues who can confirm the applicant's original scientific or scholarly contributions of major significance to the field
- Evidence of employment in a critical or essential capacity for organizations and establishments that have a distinguished reputation
- Evidence of commanding a high salary or other compensation for services (This category does not usually apply to academic positions)

Consultative Opinion – An opinion must be obtained from an appropriate peer group, labor organization, or management organization in the area of the applicant's ability. If no such organization exists, a letter stating this must be submitted.

Please attach a copy of the prospective employee's C.V.
