**Purpose Statement:**

This meeting for Ophthalmologist will cover areas  
of research and clinical innovation in our field.

**Objectives:**

This course should enable participants to:

- ◆ Address neuro-ophthalmic conditions that may masquerade as cataracts.
- ◆ Recognize diagnostic and management options for various undiagnosed cases of vision loss.
- ◆ Review treatment strategies for patients presenting with diplopia from sixth and fourth cranial nerve palsies or similar conditions.
- ◆ Apply most appropriate diagnostics for treatment of Ischemic Optic Neuropathy

The Department of Ophthalmology  
at Augusta University  
will host the annual
